EMC3@FTBF 2/2017

Images of fibers in blocks

Readout (small) end

- This shows a photo collage of the of the blocks that were in the EMC3 prototype. (The collage of square images makes the gaps between blocks appear larger than they actually are.)
- All blocks were drilled and tapped before assembly into the prototype.

19-1	20-4	21-2R	22-4R
10.07	9.74	10.08	9.92
19-2	20-3R	21-1	22-2
10.00	10.09	9.83	9.73
19-4	20-1	21-3	22-3
9.85	9.74	9.61	9.80
19-3	20-2	21-4	22-1

Reflector (large) end

- This shows a photo collage of the of the blocks that were in the EMC3 prototype. (The collage of square images makes the gaps between blocks appear larger than they actually are.)
- All blocks were drilled and tapped before assembly into the prototype.

Block ID#: Density (g/cc):

looking at reflector end			
22-4R	21-2R	20-4	19-1
9.92	10.08	9.74	10.07
22-2	21-1	20-3R	19-2
9.73	9.83	10.09	10.00
22-3	21-3	20-1	19-4
9.80	9.61	9.74	9.85
22-1	21-4	20-2	19-3
9.78	9.78	9.63	9.92

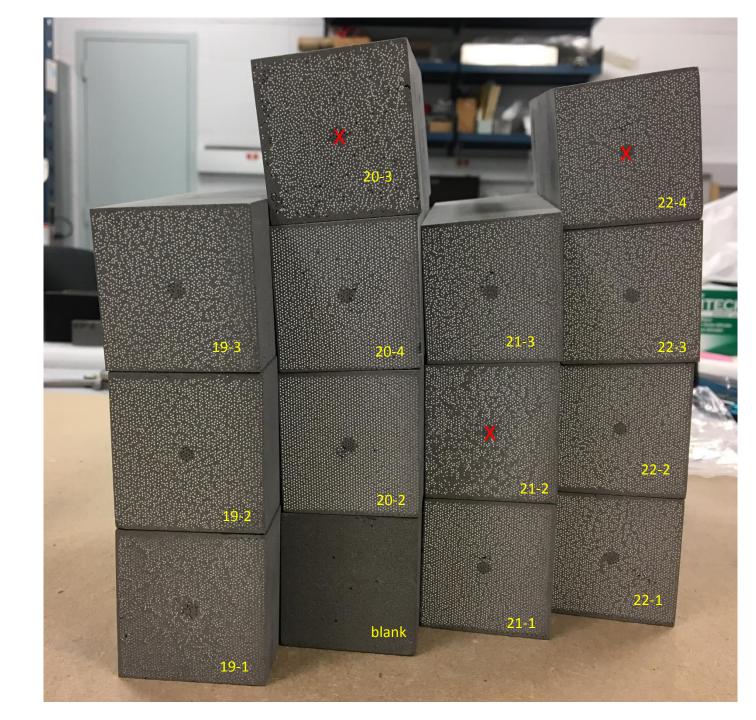

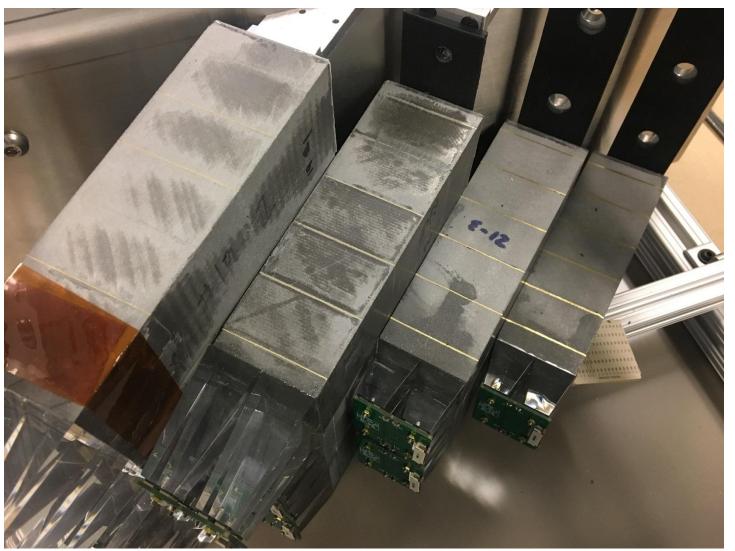

Initial "square" stack-up of blocks

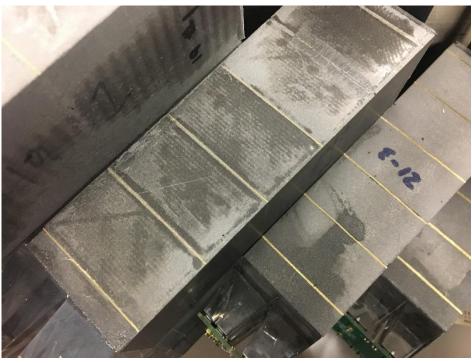

- Block positions were re-arranged in final stack
- Blocks marked with "X" were later replaced
 - 20-3 (non-uniform fibers)
 - 21-2 (non-uniform fibers)
 - 22-4 (lowest density: 9.56 g/cc)

Initial staggered stack-up of drilled/tapped blocks

- Block positions were re-arranged in final stack
- Blocks marked with "X" were replaced
 - 20-3 (non-uniform fibers)
 - 21-2 (non-uniform fibers)
 - 22-4 (lowest density: 9.56 g/cc)

EMC4 Prototype

block # 22-4 21-2 19-SG2 19-SG1 density (g/cc) 9.56 9.75 9.11 9.23
